

-	William Barnes Primary School Written Calculation Policy 2016 Subtraction			
Year	Calculation	Numicon reference or calculation name		
R	3=3, 4=4	Kit 1 Calc 2B	Establish that = means “the same as” not “give me the answer”	Meaning of =
R	10 -2	Firm Foundations 12A		Children take away by hiding holes.
R	8-1, 7-1	Firm Foundations 12B		
R	4-3, 3-1	Firm Foundations 13A, 13B		
1	8-2, 7-3	Kit 1 Calc 3A	8 take away 2 equals 6 $8 - 2 = 6$ 7 subtract 3 equals 4 $7 - 3 = 4$	Use words first then introduce symbols
1	7-2, 4-2	Kit 1 Calc 4B	 	At first give the children ready made number lines
1	7-0	Kit 1 Calc 6B	$7 - 0 = 7$ $7 - 7 = 0$	Role of zero in subtraction
1	Difference between 8 and 6 or 6 and 8 $8 - 6 = 2$	Kit 1 Calc 7A	$8 - 2 = 6$ The difference between 8 and 2 is 6.	Introducing the idea of difference early
1	10-1, 10-2, 10-3, 10-4, 10-5	Kit 1 Calc 7B Complement to 10		Children need to memorise complements to 10 as part of the 55 club
1	30-3 60-5 40-8	Kit 1 Calc 12B		Preparation for bridging 10 Children drawing their own number line jottings
1	15-7 13-6	Kit 1 Calc 13B Bridging 10		Bridging 10 – children apply their knowledge of number bonds learnt through the 55 club. Numbers less than 20.
2	23-5 75-8 93-6	Kit 2 Calc 8 Bridging 10		Bridging 10 – numbers less than 100.
2	What is the difference between 57 and 65? $65 - 57$	Kit 2 Calc 8 Difference	What is the difference between 72 and 83? 	Revisit concept of difference with large numbers and bridging using counting back
2	43-28 62-34 96-38	Subtraction using number lines		Subtraction by counting back along the number line, in 10s then by multiples of 10
3	43-28 128-136 984-765 984-795			Develop expanded method to 3 digits. Dienes can be very useful for concrete work. (Numicon pieces take up too much space)
3	128-136 984-765 984-795			Start with one column requiring “borrowing”, then extend to two columns requiring “borrowing”.
4	6534-6537			“Starting with the units, the 4 isn’t large enough to subtract six. We make it bigger by borrowing 10 from the tens column. The four becomes 14, whilst the thirty becomes twenty.”
5	73,826-24,738 532,413-243,724 216.3-7.36			Children are fluent in their number bonds and are not troubled by the complexity of these calculations working fluently and with pace.

x	William Barnes Primary School Written Calculation Policy 2016			
	Multiplication			
Year	Calculation	Numicon reference or calculation name	Progression in recording written calculations	
R	Counting 1-10 in 1s 0-20 in 2s 0-100 in 10s 0-20 in 5s	No reference in Firm Foundations		
1	Counting in groups of 10 10,20,30 etc.	Kit 1 NANS 3B		
1	Extend number sequences	Kit 1 Pattern 5B		
2	4x2, 3x5 4x3, 2x7	Kit 2 Calc 12		
2	3+3+3+3+3 5x3 10+10+10 3 x 10	Kit 2 Calc 13		
2	3 x 4 = 4 x 3	Kit 2 Calc 14		Kit 2 Calc 15 focusses on doubles and multiplying by 1
2	3,4,5 times table	Kit 2 Calc 16		
2	12 x 5 14 x 3	Final numberline stage		
3	5 x 14 4 x 32	Short multiplication expanded		
3	5 x 63	Short multiplication		
4	8 x 73 7 x 364	Short multiplication		
5	6 x 5237 20 x 623 60 x 5783 37 x 54 57 x 2653	Short and long multiplication		
				

6	7 x 1.45	Short multiplication of a decimal	$\begin{array}{r} 1.45 \\ \times \quad 7 \\ \hline 10.15 \\ \underline{33} \end{array}$	In year 6, the only new material is multiplying decimals by integers.
---	----------	-----------------------------------	---	---

William Barnes Primary School Written Calculation Policy 2016					
Division					
Year	Calculation	Numicon reference or calculation name	Progression in recording written calculations		Notes
2	50÷10=5 20÷5=4 12÷4=3	Kit 2 Calc.17 Counting up strategy Kit 3 Calc. 7			Say “How many 10s in 50?” Number lines for less able – support with apparatus
2	32÷5=6R2 17÷3=5R2	Kit 2 Calc.18 Counting up strategy Kit 3 Calc.7			Say “How many 5s in 32?” Make sure practical work is recorded with number lines
	10÷2=5 8÷2=4	Kit 2 Calc.19 The sharing nature of division Kit 3. Calc 11			Don’t record with number lines when sharing. Say “Divide 10 into two equal parts.” Say “Divide 15 into 3 equal parts.” Sharing inefficient when group sizes and numbers increase e.g 64÷4
2	15÷3=5 22÷4=5R2	Kit 2 Calc.20 Kit 3 Calc.11			Once children understand sharing, focus on counting up or repeated addition e.g “How many 4s in 44?” Once children secure with number line move onto short multiplication.
3	44÷4=11				Record using number lines – repeated subtraction
4	90÷8=11r2				Repeated subtraction on number line – first step for chunking
4	42÷3=14 185÷5=37		 <i>top facts</i> 10 L = 30 2 L = 6	 <i>top facts</i> 10 L = 50 30 L = 150 7 L = 35	Moving to larger chunks Write down “top facts”at the start . Record as 1 for “lots” to avoid using the multiplication sign.
5	224÷7=32 356÷6=59r2		 <i>top facts</i> 2 L = 14 10 L = 70 30 L = 210	 <i>top facts</i> 10 L 60 50 L 300 1 L 6	Move to vertical number line then begin recording as column method. This is preparation for dividing by 2 digit numbers.
5	84÷4=21 165÷5=33				Short division or “bus stop” method. Use when dividing by single digit
5	226÷7=32.285 3444÷8=430.5				Useful when dealing with remainders.
5	295.4÷7=42.2 183÷9=20.333				Useful for exploring recurring decimals.

6	$390 \div 32 = 12 \text{ r } 6$ $4152 \div 22 = 816$		$390 \div 32 = 12 \text{ R } 6$ <div> $\begin{array}{r} 32 \overline{) 390} \\ - 320 \\ \hline 070 \\ - 64 \\ \hline 06 \end{array}$ <div> <div>10L</div> <div>2L</div> </div> </div> <div> <div>top facts</div> <div> $1 \text{ L } 32$ $2 \text{ L } 64$ $10 \text{ L } 320$ </div> </div>	$4152 \div 22 = 816$ <div> $\begin{array}{r} 22 \overline{) 4152} \\ - 8800 \\ \hline 0352 \\ - 0330 \\ \hline 022 \\ - 022 \\ \hline 00 \end{array}$ <div> <div>800L</div> <div>15L</div> <div>1L</div> </div> </div> <div> <div>top facts</div> <div> $10 \text{ L } 220$ $20 \text{ L } 440$ $80 \text{ L } 880$ $800 \text{ L } 8800$ $5 \text{ L } 110$ $15 \text{ L } 330$ </div> </div>	Use chunking method when dividing by a 2 digit number.

+	William Barnes Primary School Written Calculation Policy 2016				
	Addition				
Year	Calculation	Numicon reference or calculation	Progression in recording written calculations		Notes
R		Firm Foundation 10a, 10b, 11a, 11b			Children choose two tiles and decide which tile is the same introducing addition.
1	6+2, 6+3, 6+4,6+5,6+6 etc	Kit 1 Calc 4A			Extend to adding 3,4,5 etc First use of number lines
1	5+0, 8+0	Kit 1 Calc 6A	$6 + 0 = 6$ $17 + 0 = 17$		Adding zero – crucial concept
1	1+9, 2+8, 3+7, 4+6, 5+5, 6+4, 7+3, 8+2, 9+1	Kit 1 Calc 7B			Children memorise their complements to ten as part of their 55 club
1	4+3+6	Kit 1 Calc 9A Adding 3 numbers using complements			Commutative law of addition Children find pairs are complements to 10 before adding.
1	37 + ? = 40 72 + ? = 80	Kit 1 Calc 12A			Adding to nearest 10 prepares the children for bridging 10.
1	8+5 = 13 7+8 = 15	Kit 1 Calc 13 A Bridging 10			Bridging 10 < 20 to begin with.
2	28+5 = 33 67+8 = 75	Kit 2 Calc 7 Bridging 10			Use apparatus including Numicon and Numicon IWB software to model
2	47+34 = 81				Bridging numbers approaching 100
2	86+38 = 124				Exceeding 100 Children now need to move to column methods
3	86+38 362+168		<div>$\begin{array}{r} 86 \\ + 38 \\ \hline 14 \\ 110 \\ \hline 124 \end{array}$</div> <div>$\begin{array}{r} 362 \\ + 168 \\ \hline 8 \\ 120 \\ \hline 400 \\ \hline 528 \end{array}$</div>		Add the numbers mentally starting with largest number E.g. 400 + 120 + 8 = 520 + 8 = 528
	372+168	Expanded column method Contracted column method	<div>$\begin{array}{r} 300 & 70 & 2 \\ + 100 & 60 & 8 \\ \hline 500 & 40 & 0 \\ \hline 100 & 10 & 0 \end{array}$</div> <div>= 540</div> <div>$\begin{array}{r} 372 \\ + 168 \\ \hline 540 \end{array}$</div>		Always start with the units first Once children understand idea of carrying then move onto compact method Carrying always below the answer box

4	3638+4542 1202 + 45 + 367	Contracted column method	$ \begin{array}{r} 3638 \\ + 4542 \\ \hline 8180 \end{array} \begin{array}{r} 1202 \\ + 45 \\ \hline 1247 \end{array} $	Introduce numbers with different numbers of digits. Add three or more numbers in columns.
5	78793+53628 53+3.12+2034	Contracted column method	$ \begin{array}{r} 78793 \\ + 53628 \\ \hline 132321 \end{array} \begin{array}{r} 638,767 \\ + 573,269 \\ \hline 1,212,036 \end{array} $	Extending to adding 5 digit numbers Then six and digit numbers Adding numbers with different numbers of digits and decimal places
6			No new content in Year 6 for addition
