

## Nessy@WilliamBarnes

As a school we have bought a subscription to Nessy, an online Reading and Spelling programme to complement our phonics teaching through Floppy's Phonics.

Nessy has been proven to help children retain phonics for spelling and reading. The Nessy programme is designed to continually assess the level that your child is working on and to adjust the challenges it offers your child accordingly. Teachers can get an update of the progress that your child is making. This programme is only to be used by the child who has been set up on the account. Your child's class teacher will let you know if your child has been chosen to access the programme.

The intention is that this provides a daily phonics, spelling and reading boost, so please let your child access the programme for around 20 minutes a day maximum, particularly if they are Home Learning due to Covid. As this is new, we would be interested in your feedback on your child's level of engagement on the game and the progress you think they are making and any pitfalls you come across.

You can download Nessy as an App or access it online here:

<https://learn.nessy.com/account/login#/monkeyLogin>

Your child then needs to add the secret word which is **FRAGRANTKAZOO**.

You should only need to enter the secret word once, then ask the system to remember you. There is a tab to watch a video on this page for further instructions.

On the next screen, your child needs to type their first name and click go, their full name should appear for them to click on next. Then you just follow the instructions!

Kind regards,

Mrs Gilham
